AIA Australia is Australia's largest life insurer by annual premium and Australia's largest group life insurer¹, protecting the financial health and welfare of more than 3.5 million individuals. Our group life insurance premiums exceed AUD\$1.8 billion and as at March 2018, this comprised 25.5% of the Australian group market for in-force premiums¹.

Our reputation is built on deep experience, market knowledge, professionalism and integrity. We take pride in being a thought leader in the Australian market, ensuring that our customers are provided the best possible products, technologies and innovative solutions to meet their specific needs. We provide life and disability insurance solutions to the Australian corporate market. We pride ourselves on our rehabilitation and return to work approach and offer access to one of the largest and most experienced rehabilitation teams in the industry. Our rehabilitation model focuses on ability rather than disability and the belief that work is good medicine. In 2016, across our group insurance book, there were more than 1,400 referrals to the rehabilitation team. In addition, the team provided expert advice during another 2,000 case conferences to assist the claims team with return to work strategies.
